

# AMP it Up

## LEVELS OF SERVICE WORKSHOP

### Let PSD help your organization prepare for **O.REG. 588/17 REQUIREMENTS**

#### > OVERVIEW:

- Review the requirements of the O.Reg.588/17
- Recognize areas that need more work/improvement to meet the regulation

#### > LEVELS OF SERVICE:

- Identify key guiding principles that services should provide to the community and public
- Analyze realistic service level metrics for the various core and non-core asset classes
- Includes an interactive activity

#### > CONDITION:

- Understand how condition impacts service life and capital planning/decision making
- Identify different attributes that are valuable to track against asset classes
- Utilize up-to-date replacement costs to ensure more accurate project planning

#### > RISK/LIFECYCLE:

- Establish proactive lifecycle activities that can be introduced into the municipality
- Develop risk metrics that allow staff to prioritize assets and projects
- Includes an interactive activity
